

Origami Bird Instructions

See pictures.

1. Lay your paper flat on the table. Fold it half from corner to corner; then unfold.
2. Grab the left and right corner and fold it to the centerline.
3. Turn the paper over to the back, you should see it as a plain looking kite. Fold both sides toward the middle line.
4. Grab the bottom tip and fold it all the way to the top tip.
5. Fold the tip on the top downward. It should look like picture #5.
6. Fold the diagram backwards in half. You should see the side view like the picture #6.
7. Grab the piece on the side and lift it upwards to form the bird's neck.
8. Pull out the 'head' of the bird gently. Take your pencil and draw a dot for its eye.
